Our Philosophy

The Lakewood Early Childhood Program promotes a nurturing and challenging environment for early learners. Our integrated classrooms demonstrate our commitment to meeting the needs of typically developing children and children with disabilities. We celebrate diversity and differentiate instruction so that all children can progress and gain skills that will allow them to be lifelong learners.

Our curriculum is aligned with Ohio's Early Learning and Development Standards. The Essential Domains of School Readiness include:

- Social and Emotional Development
- Physical Well-being and Motor Development
- Approaches Toward Learning

- Language and Literacy Development
- Cognition and General Knowledge

Learning occurs in different domains simultaneously and children are provided with a range of opportunities that will support their development.

Our early childhood program provides a core curriculum which includes language arts, math, science, health (Food is Knowledge), art and movement. We are licensed by the State of Ohio and our program follows the Early Learning and Development Standards.

5 Star Rating

Your child is enrolled in a learning and development program with a level of quality that exceeds Ohio's child care licensing standards. High-quality learning and development programs are important because early experiences last a lifetime. Your child has approximately 1,892 days from the time he or she is born until kindergarten. What happens on this journey lays the foundation for success in school and life. A Step Up To Quality Five-Star rating means your child is in a program that has demonstrated the highest level of quality. For more information about the 5 Star Rating, please visit www.earlychildhoodohio.org.

Discipline

It is the philosophy of the Early Childhood Program that children can resolve problem behaviors with modeling and support. Children will be redirected in a positive and caring manner. Parents will be informed if at any time behavior begins to interfere with learning.

We follow the Ohio Department of Education's policy for behavior management and discipline:

Constructive, developmentally appropriate child guidance and management techniques are to be used at all times, and shall include such measures as redirection, separation from problem situations, talking with the child about the situation and praise for appropriate behavior.

1. There shall be no cruel, harsh, corporal punishment or any unusual punishments such as, but not limited to, punching, shaking, spanking or biting.
2. No discipline shall be delegated to any other child.
3. No physical restraints shall be used to confine a child by any means other than holding a child for a short period of time, such as in a protective hug, so the child may regain control.
4. No child shall be placed in a locked room or confined in an enclosed area such as a closet, a box, or a similar cubicle.
5. No child shall be subjected to profane language, threats, derogatory remarks about the child or the child's family or other verbal abuse.
6. Discipline shall not be imposed on a child for failure to eat, failure to sleep or for toileting accidents.
7. Techniques of discipline shall not humiliate, shame or frighten a child.
8. Discipline shall not include withholding food, rest or toilet use.
9. Separation, when used as discipline shall be brief in duration and appropriate to the child's age and developmental ability and the child shall be within sight and hearing of a preschool staff member in a safe, lighted, and well-ventilated space.
