

# LAKEWOOD MUSIC BOOSTERS 2009-2010 MEMBERSHIP FORM

The study of music is important in a child's development. Music education promotes listening skills, improves self-image and helps build team skills. Lakewood Music Boosters support ALL music programs, at ALL levels in the Lakewood School system. As a non-profit organization, we rely on your support. With your membership, Lakewood Music Boosters can provide financial assistance to individual students and groups for items and services not funded through the school system. Your continued support for our various fund-raising projects enhances that assistance.

*On behalf of the children who love music, thank you for your support!*
